

Electrolux™ Oxygen® Ducted Vacuum Systems

OXYGEN®-920

Excellent cleaning performance designed to clean medium to large size homes.

Technical Data	
Colour	Granite grey Ice White
Construction	ABS Plastic body
Airwatts	675
Motor power max, W	1575
Waterlift, mm	3470
Motor Domel	Flow-thru
Information Display	LED
Sound Level	64 dBA
Muffler	Integrated silencer
Filter membraney	GORE-TEX™ Self-cleaning
External HEPA- Allergy Plus filter	Optional
Dirt receptacle volume,	31 litres
Dirt receptacle window	Yes
Paper bag adaptor (x1)	Yes
Dimensions HxWxD, mm	1068x465x380
Net weight, kg	10.1

Integrated Quiet-Sound™ Silencer

The integrated silencer acts as an insulator and muffler, keeping the motor sound level at a quiet 64 dBA.

Quick Release latches

The newly designed latches make unlocking and emptying the dirt bucket an easy task. The bucket locks back into place with a superior seal to make sure the dirt and dust stays in the bucket.

Gore-Tex™ Self-cleaning filter

Our exclusive self-cleaning filter with GORE-TEX™ technology filters out 98% of particles, protecting the motor and keeping superior suction over the life of your vacuum.

Optional HEPA Allergy Plus filtration

The optional HEPA Allergy Plus filter purifies the air to 99.97%, removing any impurities or allergens left after filtration, and then diffuses it through our soft air diffusion system.

Paper Bag Adapter

This adapter is an optional extra and lets you put paper bags in the dirt bucket to keep it clean and make it easier to empty.
