Motor power max, W	1600	
Waterlift, mm	3670	
Motor Domel	Flow-thru	
Information Display	LCD	
Sound Level	64 dBA	
Muffler	Integrated silencer	
Filter membraney	GORE-TEX™ Self-cleaning	
External HEPA- Allergy Plus filter	Optional	
Dirt receptacle volume,	31 ltrs	
Dirt receptacle window	Yes	
Paper bag adaptor (x1)	Yes	
Dimensions HxWxD, mm	1068x465x380	
Net weight, kg	10.1	

Integrated Quiet-Sound™ Silencer

The integrated silencer acts as an insulator and muffler, keeping the motor sound level at a quiet 64 dBA.

Quick Release latches

The newly designed latches make unlocking and emptying the dirt bucket an easy task. The bucket locks back into place with a superior seal to make sure the dirt and dust stays in the bucket.

Gore-Tex™ Self-cleaning filter

Our exclusive self-cleaning filter with GORE-TEX™ technology filters out 98% of particles, protecting the motor and keeping superior suction over the life of your vacuum.

Optional HEPA Allergy Plus filtration

The optional HEPA Allergy Plus filter purifies the air to 99.97%, removing any impurities or allergens left after filtration, and then diffuses it through our soft air diffusion system.

Paper Bag Adapter

This adapter is an optional extra and lets you put paper bags in the dirt bucket to keep it clean and make it easier to empty.

LCD Screen

The LCD display screen comes as standard on the ELUX930 model and shows power level, performance, and maintenance requirements.
