

SMART Ducted Vacuum Systems

SMI600D

Powerful cleaning performance designed to clean small to medium size homes.

Technical Data	
Construction	Plastic Body
Bagged/Bagless	Either
Motor type	Flow-thru
Air Watts	600
Motor Power Max Watts	1475
Airflow (l/s)	52 l/s
Suction (water lift)	3370mm
LCD screen	LED button
Muffler	Integrated Silencer
Sound, dBA	64 dBA
Filtration	GORE-TEX Self Cleaning
External HEPA Allergy Plus Filter	Optional
Dirt Capacity	31 Litre
Dimensions, mm's	1068 x 465x 380
Nett weight, kg's	10.1
Warranty	10 year

Integrated Quiet-Sound™ Silencer

The integrated silencer acts as an insulator and muffler, keeping the motor sound level at a quiet 64 dBA.

Quick Release latches

The newly designed latches make unlocking and emptying the dirt bucket an easy task. The bucket locks back into place with a superior seal to make sure the dirt and dust stays in the bucket.

Gore-Tex™ Self-cleaning filter

Our exclusive self-cleaning filter with GORE-TEX™ technology filters out 98% of particles, protecting the motor and keeping superior suction over the life of your vacuum.

Optional HEPA Allergy Plus filtration

The optional HEPA Allergy Plus filter purifies the air to 99.97%, removing any impurities or allergens left after filtration, and then diffuses it through our soft air diffusion system.

Paper Bag Adapter

This adapter is an optional extra and lets you put paper bags in the dirt bucket to keep it clean and make it easier to empty.
