

# SMART Ducted Vacuum Systems

## SMI650D

Powerful cleaning performance designed to clean medium to large size homes.

Technical Data	
Construction	Plastic Body
Bagged/Bagless	Either
Motor type	Flow-thru
Air Watts	700
Motor Power Max Watts	1600
Airflow (l/s)	54 l/s
Suction (water lift)	3670mm
LCD screen	LCD Screen
Muffler	Integrated Silencer
Sound, dBA	74 dBA
Filtration	GORE-TEX Self Cleaning
External HEPA Allergy Plus Filter	Optional
Dirt Capacity	31 Litre
Dimensions, mm's	1068 x 465x 380
Nett weight, kg's	10.1
Warranty	10 year

### Integrated Quiet-Sound™ Silencer

The integrated silencer acts as an insulator and muffler, keeping the motor sound level at a quiet 64 dBA.

### Quick Release latches

The newly designed latches make unlocking and emptying the dirt bucket an easy task. The bucket locks back into place with a superior seal to make sure the dirt and dust stays in the bucket.

### Gore-Tex™ Self-cleaning filter

Our exclusive self-cleaning filter with GORE-TEX™ technology filters out 98% of particles, protecting the motor and keeping superior suction over the life of your vacuum.

### Optional HEPA Allergy Plus filtration

The optional HEPA Allergy Plus filter purifies the air to 99.97%, removing any impurities or allergens left after filtration, and then diffuses it through our soft air diffusion system.

### Paper Bag Adapter

This adapter is an optional extra and lets you put paper bags in the dirt bucket to keep it clean and make it easier to empty.
